## Backing British Businesses

### Falkus Joinery

Falkus Joinery was established in 1957 as a family run business based in Shoreditch, London. Sixty years later they have retained an unrelenting commitment to traditional joinery craftsmanship.

Falkus work across a wide range of bespoke joinery from softwood to intricate fine polished hardwoods. Each design executed with elegance.

Their broad approach means they work across a range of sectors and are constantly developing and improving new methods and techniques allowing them to remain agile and to evolve with modern joinery trends.

All made in Shoreditch.

Newable supports Falkus as part of our Get Ready to Supply programme delivered on behalf of JP Morgan Chase Foundation. Falkus has benefited from workshops on Digital Presence with Mace, PR with construction PR specialists Ridgemount and Digital Marketing with a Newable adviser.

We matched Falkus with Higgins Construction and Stortford Interiors at one of our Meet the Buyer events. Falkus subsequently won a contract with Stortford Interiors' specialist joinery division ParkRose.

We continue to provide one-to-one advice to Falkus joinery as well matching Falkus with opportunities with buyers.
